POSTAL AUCTION OF JOSEPH R. BAILEY'S HERPETOLOGICAL LIBRARY

Joseph R. Bailey, who died in 1998, was a leading expert on the snakes of tropical America and coauthor of the book "Amphibians and Reptiles of the Carolinas and Virginia" (Univ. North Carolina Press, 1980). He was professor of zoology at Duke University where he supervised many outstanding graduate and undergraduate students. A full obituary was published in Herpetological Review (vol. 30, pp. 70–71, June 1999).

Joe was also a staunch supporter of the Society for the Study of Amphibians and Reptiles and joined the society in the late 1950s when it was still called The Ohio Herpetological Society. He attended many of its meetings, most recently at Appalachian State University, North Carolina, in 1995, and he regularly supported society projects involving students and books. It is most fitting, therefore, that his wife, Mike Bailey, has donated Joe's herp library to SSAR on the condition that it be auctioned and with the proceeds being used to continue Joe's interests in society activities. Accordingly, the Board of Directors of SSAR has gratefully accepted Mrs. Bailey's generous donation and decided to use the auction proceeds to set up in perpetuity The Joseph R. Bailey Endowment. The income on this investment will be used to support student activities, book-length publication projects, and other activities in keeping with Joe Bailey's interests. The Baileys' generosity will thus continue to be acknowledged in SSAR books and on student research papers, and be associated with other society activities that will be supported by the endowment.

Joe Bailey had an excellent herpetological library. Some of his books have been donated to the Duke library, but the bulk of the library—consisting of nearly 400 books and monographs—is now being auctioned. The collection is especially rich on North, Central, and South American topics. Many of the books are now out-of-print and scarce. There are some rare titles, others with exquisite plates, and a number of highly desirable collections of papers.

AUCTION PROCEDURES

ELIGIBILITY: This auction is open to all persons.

CONDITION: The books and monographs are in good condition, unless otherwise noted. Virtually all of the books have Joe Bailey's name and the acquisition date on the first or second page. Many of the books are in near mint condition. Please DO NOT write to ask further information about the books, for they are not in Ithaca, NY.

BIDS: All bids must be put on 3 x 5-inch file cards, one book per card. Simply give: (1) the auction number and author's name, (2) your bid in US dollars, and (3) your full name and address. Please provide all of this information on EACH CARD. NO OTHER FORM OF BID, including e-mail, will be accepted. Please also send a self-addressed, stamped envelope for us to send you the auction results. (All of us running this auction are volunteers and we would appreciate your cooperation in following these simple instructions.)

BID SUBMISSION: Send your bids to: Kraig Adler (Auction), Cornell University, Neurobiology, Mudd Hall, Ithaca, NY 14853–2702, USA. Bids MUST BE RECEIVED by February 1, 2000.

BIDDING: The minimum bid per item is US$1. The highest bid on each title wins. In the event of ties, bidders will be notified and can re-bid. No bids will be accepted for the entire collection.

NOTIFICATION: After the close of bidding, winners will be notified, probably by mid-February. At that point successful bidders will be sent a list of books purchased and will be asked to make payment to the SSAR Treasurer for the books plus shipping (and insurance, if requested). Once payments have cleared (checks, credit cards), the Treasurer will have the books sent to you. Further details will be provided at the time of notification.

QUESTIONS: Address procedural questions only to Kraig Adler (address above, or by e-mail to: kka4@cornell.edu). The books are not in Ithaca, so questions about them cannot be answered.

PRICES REALIZED FROM THE AUCTION OF JOSEPH R. BAILEY'S HERPETOLOGICAL LIBRARY

The auction of Professor Bailey's library concluded on February 1, 2000, the announced deadline. SSAR wishes to thank the 84 persons (70 USA, 4 UK, 1 Sweden, 2 Germany, 2 Canada, 1 Switzerland, 2 Australia, 1 Brazil, 1 Slovak Republic) who participated. A total of 1604 bids were submitted. The winning bids are given below, which provides a reasonable estimate of the current market value of these titles since the auction was widely announced throughout the world and a period of six months was allowed for bidding.

A little commentary on the auction. There were some real bargains. Several books fetched winning bids at $300 or more, but these were truly rare or scarce books. The books with the highest number of bids were these: 14 bids each for 37/Goode, 159/Baird and Yarrow, 172/Surface, and 289/Taylor; 15 for 154/Amaral; and 16 for 155/Campbell and Lamar. The average number of bids was 4.6 per book. In-print books sometimes brought their current prices or, in the spirit of the auction's noble objectives, even a little more. Some surprises: 8 bids for Branch's Lab Anatomy of the Hellbender (#17), 12 for Hurter's Herps of Missouri (#40), and 14 for Surface's Herps of Pennsylvania (#172). Probably the rarest books in the auction were Garcia's Serpents of Colombia (#10, $360), Jan's Elenco Sistematico (#27, $153), Wallace's Geographic Distribution (#105, $250), and Okada's Herps of Jehol (#234, $333). There were a number of successful bids that won by a margin of as little as 10¢ or, in one case, by 5¢! Only 34 books were purchased by dealers, although they placed 463 bids. Of the 84 persons who placed bids, 79 were successful for at least one title.

The total amount realized from the auction was nearly US$16,000. This sum will be placed in The Joseph R. Bailey Endowment, with income on this investment to be used to support student activities, book-length publication projects, and other activities in keeping with Joe Bailey's interests. We thank all those who participated.
